

EQUESTE+™

Uniquely crafted with 3 active probiotic culture strains, fortified with herbs to maximize digestive health and well-being.

This fermented probiotic formula helps stimulate food conversion, mitigate digestive issues, suppress the growth of parasites, pathogens, and flies, in addition to reducing stress and anxiety.

INGREDIENTS

LIVE CULTURES:

- Lactobacillus casei
- Lactobacillus plantarum
- Lactococcus lactis subsp. Lactis

HERBAL FORTIFICATION: Garlic, Lemongrass

EQUESTE+™ Extra Strength

Uniquely formulated with 8 live probiotic culture strains, fortified with herbs to fight inflammation and boost metabolic function in horses.

Perfect for horses performing at a professional level, or for those who have health challenges requiring therapeutic dosages for optimal recovery and health.

INGREDIENTS

LIVE CULTURES:

- Bifidobacterium animalis subsp. Lactis
- Bifidobacterium bifidum
- Bifidobacterium longum subsp. Longum
- Lactobacillus acidophilus
- Lactobacillus paracasei
- Lactobacillus rhamnosus
- Lactococcus lactis subsp. Lactis
- Streptococcus thermophilus

HERBAL FORTIFICATION: Burdock Root, Dandelion, Marshmallow, Milk Thistle, and Nettle

ARTISAN LIQUID PROBIOTICS

Purposefully Produced in Liquid Form

EQUESTE+ is intentionally formulated to promote the well-being of your equine companion by supporting their digestive system, which in turn bolsters their immune and nervous systems, contributing to their overall health.

Horses have a unique gastrointestinal tract, which means they require specialized solutions that support their natural gut flora and nutrient absorption process. This is why we produce our horse supplements in liquid form.

Our proprietary fermented liquid formulations allow faster absorption into the bloodstream, minimizing the amount of time your animal must wait to experience the benefits of our digestive supplement for horses.

EQUESTE+ begins to absorb in your horse's mouth, followed by absorption in the foregut, and subsequently in the hind gut (unlike probiotics in powder form added to feed).

Promotes Full Body Wellness

Probiotics offer significant benefits for horses by positively impacting your equine's overall health and well-being. They play a crucial role in preventing a wide range of health issues and safeguard the future well-being of your cherished four-legged companion by promoting:

- Maximum Digestive Health
- Improved Overall Health
- Efficient Nutrient Absorption

ORGANIC, FILLER & GMO FREE

Lifelong Wellness Optimizer

The microbiota found in your horse's stomach and digestive tract is responsible for stimulating immune responses, breaking down foods, and even producing special bacteria that prevent heart disease.

As an equine wellness optimizer, EQUESTE+ is the result of decades long research into transforming the best qualities of select food-grade probiotics known for their gut and digestive healing power.

Studies confirm that probiotics can help relieve and accelerate healing from common conditions like:

- Ulcers
- Inflammation
- Colic
- Constipation
- Diarrhea
- Intestinal Parasites
- Gastric Discomfort
- Stomach and Colonic Ulceration
- Enterocolitis

In addition to stimulating the creation of digestive enzymes, probiotics also provide an array of oxidative properties including:

- Protected Cell Membranes
- Accelerated Exercise Recovery
- Lower Stress Levels, *even on tour*

EQUESTE+ furthermore promotes shiny, healthy coats and hooves, and reduces the risk of laminitis, as well as the incidence of flies and other bothersome insects.

TRIPLE FERMENTED, BIOAVAILABLE FORMULA

Fermentation and Bioavailability

"Bioavailability refers to the percentage of nutrients that are absorbable."

Herbal Power

EQUESTE+ has a complex blend of organic herbs added to its probiotic blend. Rich in vitamins, minerals, and antioxidants, herbs enhance the medicinal benefits of probiotic fermentation by boosting nutrient bioavailability.

The unique, small-batch fermentation process of EQUESTE+ amplifies the bioavailability of the herbs' nutrients, vitamins, and minerals.

Who benefits from EQUESTE+™ ?

All foals (older than 30 days), ponies, and horses.

How is EQUESTE+™ best taken?

Feeding is simple! Just mix EQUESTE+, or EQUESTE+ Extra Strength with water at a 1:150 ratio, or 1 liter in 150 liters of water. It can also be mixed directly into feed. *This product stays viable in drinking water for 3 days.*

Equine	Suggested Serving	Water
<i>Foal</i>	<i>30 - 60 ml</i>	<i>4.5 - 9 L</i>
<i>Pony</i>	<i>60 - 120 ml</i>	<i>9 - 18 L</i>
<i>Adult Horse</i>	<i>120 - 210 ml</i>	<i>18 - 31 L</i>

Safe for insulin resistant or metabolic horses

Note: Dosage can be increased as necessary. Increasing the dosage poses no risk of harm to your animal.
